

MATERIAL CONTAINER

CABLE HOIST ACCESSORY

Get the most use out of your hoist with our
LIFTING ACCESSORIES

Standard Features

- 36"W x 36"L x 12"H
- 4-point sling with shackles
- 700 lb Load Capacity
- Steel Construction
- Weight: 60 lbs

The Material Container (PMC) is most commonly used for transporting loose material such as demolition debris, waste items, flowable material, etc. The solid sheet metal construction makes it light weight and easy to handle while keeping small items in the container. This accessory is for material use only.
